

Epson TM-P60II Peeler Series

DATASHEET / BROCHURE

Wireless, hand-held, label printer, for fast and convenient labelling.

The Epson TM-P60II Peeler is a second-generation, wireless mobile label printer from the world's leading POS printer manufacturer¹. Offering a brilliantly simple printing solution, the hand-held TM-P60II Peeler prints directly from mobile devices² – no drivers needed.

Unique, built-in intelligence, called Epson ePOS-Print, enables the TM-P60II Peeler to receive XML commands from web applications, and to print directly from popular web browsers. This makes integration and maintenance easy.

Ideal for shelf-edge labelling and product tagging, the TM-P60II Peeler gets the job done quickly with high-performance printing at up to 80mm/sec. Drop-in paper loading helps save time.

The TM-P60II Peeler is designed for maximum reliability, with a rugged case. Its battery lasts for up to 46 hours in Bluetooth mode, and up to four batteries can be charged simultaneously using the optional charging unit.
