Save Big with Zebra's Printhead Protection Program

Zebra Printheads wear down, barcode print quality suffers and need to be replaced. Genuine Zebra Printheads are also very expensive, but did you know that this cost can be eliminated?

A replacement Zebra printhead can range anywhere from \$350 - \$950+ for a tabletop (industrial) sized printer. Multiple printheads per year can add up to quite an expensive investment to keep your Zebra barcode printers running.

You may think this is a regular cost of printing barcode labels, but it is actually unnecessary. When you enroll in the Zebra Printhead Protection program, you receive 100% genuine brand new Zebra printheads for free. That's right.... Free Zebra Printheads!
